

# STOP COLD STORAGE AT THE ESPLANADE AVENUE WHARF

## HOMES. HEALTH. HISTORY. NOT TRUCKS AND TOXINS.

Join the concerned citizens and leaders of New Orleans in promoting the health, homes, history and future of New Orleans.

The Port of New Orleans has proposed the development of a Cold Storage Facility at the Governor Nicholls/Esplanade Wharf. This heavy industrial plant poses a threat to the safety and quality of life for the citizens, tourists and buildings in surrounding communities.

This industrial facility will invade the neighborhood with:

- The threat of toxic ammonia leaks in a historic residential and tourist areas
- Up to 100 18 wheelers driving through the neighborhoods per day
- Increased threat of ship wrecks and accidents
- Severe increase in air pollution for surrounding communities

To join your neighbors and friends in preserving the quality of life for our tourists and residents, please visit [www.faubourgmarigny.org/nocs.htm](http://www.faubourgmarigny.org/nocs.htm) or contact Eva Campos at **504-444-8313** or [eva@faubourgmarigny.org](mailto:eva@faubourgmarigny.org)
